Functional Wellness Program

Graceful Seniors Functional Wellness Program focuses on positive health and functional wellness. Our nursing staff evaluates your parent or loved one's present condition paying particular attention to chronic illnesses such as Diabetes, Congestive Heart Failure, Vascular Disease, and Heart Disease. We develop a plan to maximize their quality of life. Our staff communicates with their doctor when needed, to assure your loved one is receiving the best possible care, and managing with a chronic illness. With close monitoring and a focus on positive health, your loved one's quality of life is improved by reducing complications. Our ultimate goal is to keep your loved one in the comfort and safety of their own home.
